'Life' Subject Of Science Lesson Sunday

"Life" will be the subject of the Sunday Bible lesson in all branches of the Mother Church, the First Church of Christ, Scientist, in Boston. The Golden Text, chosen from the Psalms, reads: "The Lord is my light and my salvation; whom shall I fear? The Lord is the strength of my life; of whom shall I be afraid?"

John's gospel relates that when Jesus came to the grave of Lazarus, he said to Martha, "Thy brother shall rise again. Then they took away the stone from the place where the dead was laid. And Jesus, lifted up His eyes, and said, 'Father, I thank Thee that thou hast heard me. And I knew that Thou hearest me always. . . And when he thus had spoken, he cried with a loud voice, Lazarus, come forth. And he that was dead came forth, bound hand and foot with graveclothes. . . Jesus saith unto them, Loose him, and let him go.'"

In "Science and Health With Key to the Scriptures" Mary Baker Eddy says: "Suffering, sinning, dying beliefs are unreal. When divine Science is universally understood, they will have no power over man, for man is immortal and lives by divine authority."
